

## EAC Program

### **For the Love of Art**

#### **The Daniel and Fala Powers Collection**

**Sunday, June 29, 2014 • 3- 5 pm**

Enjoy a few pleasant hours at the Powers' home, surrounded by their art collection that fills the indoors as well as flows into the outdoor sculpture garden and hilltop. Catch the stunning panoramic view of the ocean and indulge in musical entertainment and refreshments at this celebratory Summer EAC program. The Powers' home combines an eccentrically different vision of West Coast Pre-Columbian artifacts. All the objects are grouped dynamically for their story-telling tales of past civilization - be it the consequences of war, food gathering, daily life activities, disease and even crucial tribal ceremonies and decision-making. The modern art ranges widely - including tapestries, etchings and prints, paintings, photography and three dimensional compositions drawn from Nordic, Asian, African, European, Cuban and Native, Latin and Anglo American objects. Small and monumental stone, bronze and steel sculptures by artists from the US and other countries are scattered throughout the house and garden.

**RSVP by Noon June 26 to [feelie@ucla.edu](mailto:feelie@ucla.edu) for call (310) 454-7851**

**Reserve early. Limited to 60**
