

## Michael Hamson on Sneak Preview of *Parcours des Monde* September 2023

**March 26, 2023 • 2 - 4 pm**  
**Palos Verdes Estates**

Join us for a gripping tale told from one of the most adventurous and prominent art dealers of Oceanic art. Michael Hamson has spent nearly 20+ years doing field work in Papua New Guinea (PNG) and the neighboring region. He will share with us the arduous process in getting a piece to *Parcours*: to find, acquire, photograph, research (qualitative, ethnographic & provenance), and ultimately price an object! He will walk around the gallery discussing each piece, aesthetically, historically, and the circumstances of the acquisition both in the field and now from collections found in homes throughout the US and elsewhere. His website <https://oceanicart.com/> is a veritable compendium of historical and contemporary images along with useful essays.
