

## The Greg & Mechas Collections

**June 28, 2025 • 2 - 5 pm • Ojai**

By popular demand the EAC will travel to Ojai to re-visit the Grinnell collection of outstanding textiles and pre-Columbian ceramics from Columbia, two of their distinguished holdings among the Amazonian feather works and other artifacts collected over their 40+ years quest. The Grinnells continue to upgrade and fine-tune their collection and it is a marvel to view. More information on the particulars of their collection will follow shortly. We encourage you to visit Ojai that weekend and experience the aesthetic joy from viewing the art! Even grandma Thelma above is preparing a practice run to Ojai with all her weaving materials closely held! An expert team will also join us as we view the collections!

**Limited to 40 EAC members. RSVP's in the next email!**
